Projects

1. Portfolio

Technology Used: HTML, Css

It is a personal Portfolio website . It is mainly developed by using Html5 and Css6.

Github link: <https://github.com/nahida30/responsive-portfolio>

2. Education Website

Technology Used: HTML, Css

It is a student portal based website. From where students can see how many likes and comments they give , what are the top categories courses, Which courses are available etc. It is just a front page design using HTML and CSS.

Github link: https://github.com/nahida30/education_website

3. Geometry Genius

Technology Used: HTML, JavaScript

It is a mathematical base website. Which was designed using Html and JavaScript. Here are 2 types of field. User can enter any number they want and then calculate them . And in another type input is given to the user they can just calculate them.

Github link: <https://github.com/nahida30/geometry-genius>
